

JoEllen Fuller

I was raised on a farm many years ago in the western part of Kankakee County. I lived on the farm until I moved to Marseilles as the principal 5 years ago. Education has been my focus in life, following only the birth of my grand-daughter, Lily, two years ago.

I have had several experiences in my tenure as an educator. Some being:

- 8 years as a teacher's aide for cross categorical and hearing impaired students
- 8 years as a school bus driver
- 8 years as a special education teacher, junior high and high school
- 8 years as a principal, elementary and high school
- 4 years as a superintendent of schools

Colleges which I attended:

- Kankakee Community College-Associate of Applied Sciences-Law Enforcement
- Governors State University – Bachelors of Arts-Elementary Education
- Governors State University – Masters of Arts-Multi-categorical Special Education
- Western Illinois University – Superintendent's Endorsement

I am enjoying my position at Marseilles Elementary and look forward to making positive changes for students and staff. My goal is to make Marseilles Elementary the best school it can be.
